# VEGA.

## 1500

### Product description

Cost-effective single-shaft shredder for processing a wide range of waste materials for smaller requirements.

### Throughput capacity

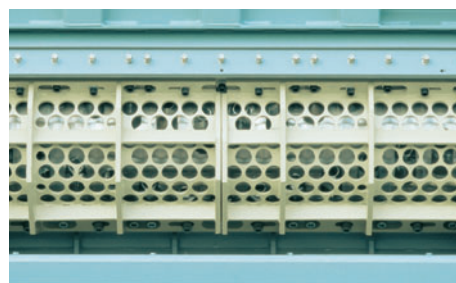

e.g. with loose plastic film and screen size 50 mm: 1 t/hour.

### Material specification

Mixed plastics for thermal utilisation and recycling; paper, cardboard, files; plastic and foam materials, containers, rubbers, leather, textiles, floor coverings, cables, computer scrap, wood, etc.

The milling rotor permits low-vibration running by means of its special blade arrangement. The Monofix system ensures rapid blade change.

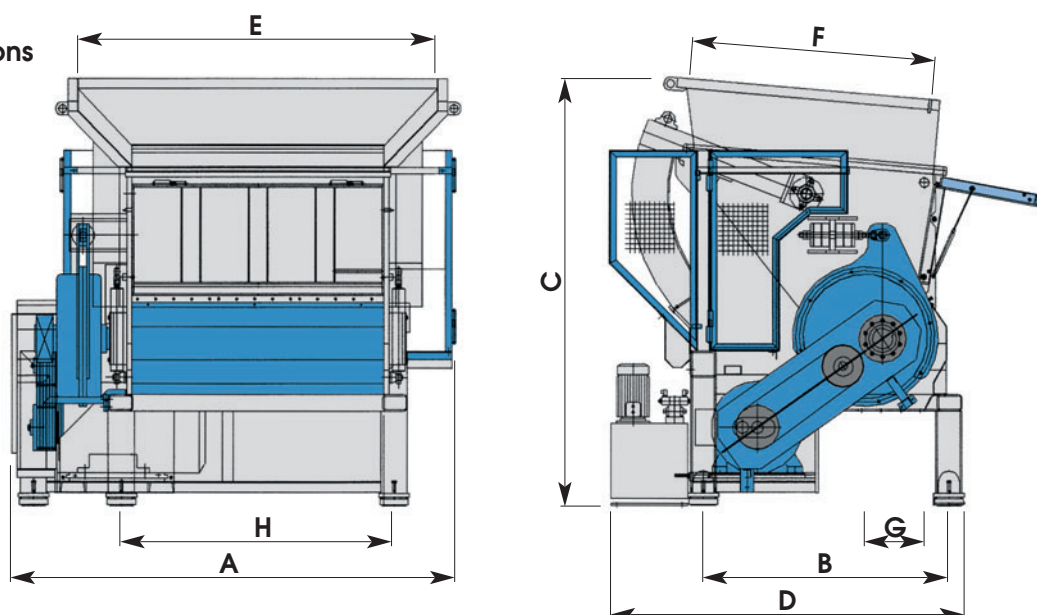

The rapidly changeable screen with a diameter of 11 to 80 mm supplies defined grain size.

### Technical data

	VEGA 1500
Feed opening	2200 x 1500 mm
Hopper space	app. 2 m <sup>3</sup>
Shredding area	1100 x 1500 mm
Rotor periphery	1500 mm
Rotor circle	434 mm
Rotor speed	80 rpm
Number of blades	52
Number of counter blades	3
Number of scrapers	3
Drive rating	55 kW
Hydraulic pusher system	5,5 kW
Screen	11 - 80 mm
Weight	ca. 7.000 kg

Technical subject to alteration.
